Thank You!

Thank you to all contributors and all supporters this zine has received. We are excited to finally release the zine to all! We hope that you love all the artwork put together from all of these amazing artists (because we for sure do!)

Before we get to the artwork...we'd like to take the time and express the gratitude and love we feel for all of our contributors. It's been an absolute experience working with all of these kind-hearted and sweet artists. Talking amongst ourselves in the discord server was really fun and us mods will never forget it! We're so glad to have been able to work with such a social group.

Now that the cheese is over...

We hope you love all the artwork dedicated to the talented, gorgeous, kind-hearted, and most importantly...MIRACULOUS character that is Marinette Dupain-Cheng! To *Our Lucky Lovebug*, we love you!

We'd like to leave a special thank you to our promotional artist and moderator *@orridkr*. Without her, this zine would honestly have been in shambles. Thank you so much for offering to create artwork for our tumblr posts and creating our logo. Also, thank you so much for communicating so actively with all of the artists on the discord. We applaud you for your hard work! We love you so much!
